

Thanks for the coffee!

Since 2009 the hotels in Sigtuna and around Arlanda are collaborating on sustainable development based on a shared vision - together we make a difference. As the fourth largest hotel destination, we have a responsibility. Through forward thinking and innovation we care for each other, our visitors and the environment to permeate our work. We want to inspire each other and others to build a sustainable destination.

Of course we serve organic coffee and organic milk.

We serve **1 900 000** cups of organic coffee

with **60 000** litres of organic milk every year.

It helps to **lower the risk of contamination** by pesticides in groundwater and streams,

reduces use of chemical pesticides equivalent

to 17 000 liter bottles of Roundup..

Additionally 30,9 hectares of land is readjusted for **organic production.**

It leads to *increased biodiversity*

and reduced energy consumption.

We are collaborating for a sustainable destination:

1909 Sigtuna Stads Hotell, 32 rum & kök, Best Western Arlanda Hotellby, Clarion Hotel Arlanda, Hotell Kristina, IFL Kämpasten, Radisson Blu Arlandia Hotel, Radisson Blu SkyCity Hotel, Rosersbergs Slottshotell, Sigtunahöjden Hotell & Konferens, Sigtunastiftelsen Hotell & Konferens, Stora Brännbo Konferens och Hotell, Wengarn and Destination Sigtuna.
